Sir,

I have the honour to state that due to prevailing war conditions the cost of bullocks and bullock carts has gone up abnormally and it is found very difficult to secure bullock carts for conveying materials like metal, - gravel, emulsion and other articles required for works The Trust Board - has also on hand the laying out of two important extensions viz , Yadavagiri and Paduvarahalli and these works involve the carrying of earth to considerable distances for forming roads, and conveying of metal for consolidation and watering of roads etc It is not possible to get the above works done by engaging bullock carts not only because of the magnitude of the works but also on account of the scarcity and abnormal charges demand for the bullock carts A heavy programme of acquisition works is also on hand and it also involves the carriage of dismantled materials in large quantities The subject was therefore placed before the Board at the Meeting held on 31st May 1944 and the Members after due consideration of the question approved the proposal to purchase four lorries at a cost of Rs 27,200/- The cost of the lorries will be charged to the estimates for Rs 3,80,000/- and Rs 3,00,000 for Paduvarahalli and Yadavagiri Extensions separately submitted to Government for sanction When the works are over the lorries will be transferred to the Municipality if necessary, or they may be retained in the Trust Board only as there will always be heavy work for them and as we would save considerably in carting work by having lorries A copy of the Resolution of the Board approving the purchase of the lorries is herewith enclosed

2 I request that sanction of Government may kindly be obtained for the purchase of the lorries under the circumstances explained above and

communicated to this office at an early date

NOTE FOR PURCHASING LORRIES FOR THE TRUST BOARD WORKS

Consequent on the rise in the price of bullocks and bullock carts it has become very difficult to convey materials like metal, gravel, emulsion and other articles by engaging -- bullock carts During the year 1944-45 a sum of 5 lakhs has to be spent for construction works There are two extensions to be laid out each costing more than 3 lakhs This involves conveying of earth for formation of roads, conveying of metal for consolidation works, watering of roads, conveying materials such as cement, iron, stoneware pipes etc These works cannot be done by engaging bullock carts It is therefore suggested that Government be moved in the matter and requested to accord sanction for the purchase of four lorries for the Trust Board - works Later on if the Trust Board works are reduced they - will be transferred to the Municipality if necessary

The total cost for four lorries required for the Trust Board would amount to Rs 27,200/- which can be provided for as - follows -

Rs 13,600/- out of extensions of lay-outs of Paduvarahalli and Yadavagiri Extensions One Water Lorry with tank of 800 gallons capacity and the other ordinary lorry

Rs 6,800/- for one lorry towards purchase of stock such as cement, iron, stoneware pipes etc

Rs 6,800/- for acquisitions, conveying dismantled materials etc

Government may be requested to supply these lorries in the first quarter starting from July 1944 only
